WORK EXPERIENCE

Yale University | New Haven, CT | September 2019-Present

Product Manager, YaleSites Platform | October 2024-Present

- Set product vision and strategy for an ecosystem serving 1,500+ websites, leading cross-functional teams to deliver user-centric platform experiences.
- Developed feature prioritization framework based on user research and data analysis, collaborating with stakeholders to select development vendors.
- Managed product backlog in Jira, organizing user stories and feature requests to maximize team productivity and platform adoption.

User Experience Analyst 3 | July 2024-Present

- Mentored junior UX designers on user research methodologies and design strategy, fostering team growth and establishing design best practices.
- Led UX strategy for LUX platform (lux.yale.edu), facilitating end-to-end design process including wireframes, requirements gathering, and complex data model navigation.
- Created a comprehensive relational database of all Yale websites to enable data-informed platform migration decisions and user segmentation strategies.

User Experience Analyst 2 | September 2019-July 2024

- Designed Yale SSO and account management experience used daily by entire Yale community (45,000+ users), focusing on seamless authentication flows.
- Delivered Yale MFA opt-in experience that achieved 100% reduction in compromised accounts through intuitive onboarding and clear security value communication.

Timex Group | Middlebury, CT | December 2018-August 2019

UX/UI Engineer | December 2018-August 2019

- Achieved product success metrics: 100,000+ downloads, 1,500+ reviews, 4.1/5 star rating through user-centered design approach.
- Led end-to-end UX design for Timex Family Connect smartwatch application and device experience from conceptualization through launch.
